

HOMELESS EDUCATION POLICY & PROCEDURES

The McKinney-Vento Homeless Assistance Act (McKinney-Vento Act) ensures homeless children and youth have equal access to the same free and appropriate public education, including a public preschool education, as provided to other children and youths. To the extent practical, and as required by law, the district will work with homeless students and their families to provide stability in school attendance and other services. Homeless students will be provided district services for which they are eligible, including Head Start and comparable Pre-School programs, Title I, similar state programs, special education, bilingual education, vocational and technical education programs gifted and talented programs and school nutrition programs. It has most recently been reauthorized under the Every Student Succeeds Act of 2015 (ESSA). The Atlantis Charter School's Homeless Education Policy addresses the following key components of the McKinney-Vento Act:

School Placement

In determining the best interest of the child or youth Atlantis shall:

- Presume keeping the student in the school of origin is in the student's best interest except when doing so is contrary to the request of the parent, guardian or unaccompanied youth; and
- Consider student-centered factors related to the student's best interest including factors related to the impact of mobility on achievement, education, health, and safety of homeless students, school placement of siblings, giving priority to the request of the parent, guardian, or unaccompanied youth

Atlantis' Homeless Liaison considers the student's best interest in all meetings that it is involved with.

According to the best interest of the homeless student, the district either

- Continues the student's education in Atlantis Charter School for the duration of homelessness in any case in which a family becomes homeless between academic years or during an academic year; and for the remainder of that academic year, if the child or youth becomes permanently housed during an academic year; or
- If it is decided that student will not remain in the Atlantis Charter School, then the Homeless Liaison or designee will assist in enrolling the student in the district in which the student is residing
- In the case of unaccompanied youth, the Homeless Liaison or designee will assist in placement or enrollment decisions considering the requests of such unaccompanied youth.

Atlantis will continue the education of any student who is deemed in his/her best interest to attend Atlantis Charter School according to the regulations.

Transportation

Homeless students are entitled to transportation at the request of the parent or guardian (or in the case of an unaccompanied youth, the liaison) to their school of origin or the school where they are enrolled.

Also, transportation will be provided:

- if the homeless student continues to live in the area served by the district in which the school of origin is located, that district must provide or arrange transportation if needed;
- if the homeless student moves to an area served by another district, though continuing his or her education at the school of origin, the district of origin and the district in which the student resides must agree upon a method to apportion responsibility and costs for transportation to the school of origin; and
- if the districts cannot agree upon such a method, the responsibility and costs must be shared equally.

If the request for transportation is made the Homeless Education Liaison will put in a transportation request to the Director of Transportation. The Director of Transportation will contact the Transportation Department and provide them with the necessary information for the student. The Transportation Department will contact the parent/guardian to set up the pickup and drop off times and locations.

The Homeless Education Liaison will ensure that the parent or guardian of a homeless student, and any unaccompanied homeless youth, is fully informed, in the language of the home, of all transportation services, including transportation to the school of origin, and is assisted in accessing transportation to the school selected.

Enrollment

A homeless student is considered eligible to apply regardless of residency documentation. Based on the charter school enrollment policies if there is an available seat then the school must immediately enroll homeless students in school to provide educational stability and avoid separation from school for days or weeks while documents are located. Therefore, homeless education liaisons must ensure that:

- students who chose to enroll in school where they are temporarily residing must be enrolled immediately, even if they do not bring the records usually required for enrollment with them;
- if a homeless student arrives without records, the previously attended school district is contacted and the required records requested;
- that homeless students are attending school while the records are being requested;
- districts remove barriers to homeless students receiving appropriate credit for full or partial coursework satisfactorily completed while attending a prior school; and
- information about a homeless student's living situation shall be treated as a student education record and not be deemed to be directory information and therefore cannot be shared with the public including landlords.

Disputes

If there is a school selection or enrollment dispute, the student shall immediately be enrolled in the school in which enrollment is sought, pending resolution of the dispute. Unaccompanied youth will also be enrolled pending resolution of the dispute.

The parent or guardian shall be informed of the district's decision and their appeal rights in writing. The Atlantis Charter School District's Homeless Liaison will carry out dispute resolution as provided by state rule.
